

DUDLEY KINETIC®

Introducing Kinetic - the new, intelligent urinal flushing control from Dudley. Attractively styled, multi-functional and simple to install and set-up, Kinetic has been designed to reduce water consumption in commercial washroom installations.

Control box, solenoid and ceiling mounting kit supplied

Solenoid can be installed next to or remotely from control box

Simple set up via user-friendly buttons and wizard

USES

- Kinetic is ideal for use with automatic cisterns and multiple station urinals.

FEATURES

- Can be easily installed into pipework, wall or ceiling mounted applications.
- Supplied with an aesthetically pleasing flush mounting kit.
- Each unit can be powered by mains, 4 x AA batteries or mains with battery back-up (batteries not included).
- Control box can be installed remotely from the solenoid and is supplied as standard with a 1m cable.

- Passive infrared sensor detects user movement. After a pre-set time, the solenoid valve allows water to fill the cistern and deliver a flush.
- Fast fill reduces scale build up.
- Suitable for water pressures ranging from 0.1 bar to 10 bar.
- Quick and simple set up via user-friendly buttons and intuitive software without having to continually refill and empty the automatic cistern.
- 12 hour hygiene and 24 hour economy flushing modes can also be quickly configured to customer requirements.
- Tamper proof design and chrome fittings are conveniently included.

- WRAS approval pending.
- Control box dimensions: 118mm(h) x 118mm(w) x 33mm(d)
- Solenoid box dimensions: 98mm(h) x 100mm(w) x 50mm(d)

WATER-SAVING

- Regulates flushing based on actual washroom usage to save up to 80% of water when compared to traditional systems.

OPTIONS

- Available in glossy white and grey finishes. White control box and grey solenoid combination also available.
